MC-331 Cargo Tank Model / Prop Specification Sheet

This unique Cargo Tank Model was developed by STTS for the sole purpose of training firefighters and emergency responders in the construction features and operational features of the MC-331 Cargo Tank. Each unit is an authentic replica of the operational system found on MC-331 Cargo Tanks commonly associated with the transportation of propane and anhydrous ammonia. This model is equipped with a complete loading system including a spray fill feature and is equipped with all emergency devices and features commonly found on MC-331 Cargo Tanks.

Specifications:

- 72" Long – 28" Wide – 52" Tall (Fits through most industrial doorways)
- Lightweight aluminum construction
- 9" pneumatic tires for increased mobility
- Open on one side to allow viewing of internal valves, gauging float, and the spray fill/vapor standpipe
- Cable operated internal valve (with excess flow feature)
- Two cable operated emergency remote shutdowns (opposing corners of the tank)
- 2" rotary vane liquid pump
- 2" liquid line with globe valve
- 1 ¼" vapor line with globe valve
- Internal spring pressure relief device (250 psi)
- Not pictured are two gauge wells displaying liquid level % gauge, pressure and temperature gauges as well as two fixed liquid level gauges
- 1 year limited warranty
